**RENTAL COLLECTION**

A college library is necessarily a specialized library. Its primary purpose is to supplement the courses offered in the curriculum. It cannot make the popular appeal of the public library. Books that make for general culture and recreation rather than for "credits"—modern fiction, contemporary poetry and essays and the many other new books that every intelligent man and woman ought to know are often lacking on its shelves. Inadequate funds and the definite needs of the various departments for the best and latest material in their specific lines prevent the purchase of such books in sufficient numbers. In order to remedy this very serious defect in this library and to make this library a more vital factor in the life of the community of which it is a part, the following books have been bought and put into a rental collection. Frankly, this is an experiment, attempted for the sake of meeting a most commendable demand. If it works, this library will be able to continue to furnish its readers practically any new or old book that is wanted. The books are here; the faculty, the students, and especially the people of the town are invited to use them. The rent on each book is ten cents for the first week, this being a minimum, with two cents a day additional for overtime. When the books have paid for themselves, they will become a part of the general library. The books in the general library are for the free use of all who care to read them. Everybody is always welcome in this library.

Respectfully,  
**WARD EDWARDS,**  
Librarian
